**1.** Patients choose which device they want to receive alarms: FreeStyle Libre 2 reader or FreeStyle LibreLink app. They must start their FreeStyle Libre 2 sensor with that selected device. Once the patient scans their FreeStyle Libre 2 sensor with that device, they can receive alarms only on that device. **2.** The FreeStyle LibreLink app is only compatible with certain mobile devices and operating systems. Please check the website for more information about device compatibility before using the app. Use of FreeStyle LibreLink requires registration with LibreView.

# What is the difference between the FreeStyle Libre system and the FreeStyle Libre 2 system?

Just like the FreeStyle Libre system, the FreeStyle Libre 2 system is discreet, convenient and easy to use<sup>1</sup>, now with added benefits:

## No finger pricks<sup>2</sup>

There's no need to prick your finger when using the FreeStyle Libre 2 system - even when glucose is low, falling or rapidly changing.

## Excellent accuracy<sup>1,3</sup>

Outstanding accuracy in the low glucose range when it matters most

## Optional alarms

Peace of mind when it's needed most, with three optimal real-time alarms for those who need them.

- Low glucose alarm
- High glucose alarm
- Signal loss alarm
