

The FreeStyle LibreLink app and your Android smartphone

With the FreeStyle LibreLink app,¹ you can scan your FreeStyle Libre 2 sensor with an Android smartphone

YOU CAN DO IT
WITHOUT LANCETS²

DOWNLOADING THE FREESTYLE LIBRELINK APP^{1,3}

1 Go to **Play Store**

2 Search FreeStyle LibreLink

3 Look for FreeStyle LibreLink – GB and **click**

4 Click **Install**

5 Once downloaded open the app and follow the on-screen instructions to get set-up

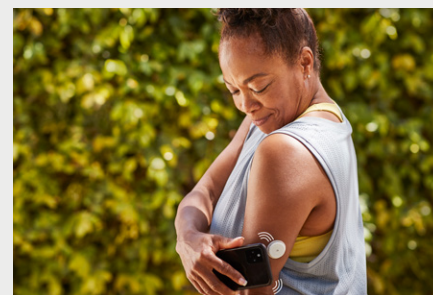

SCANNING THE FREESTYLE LIBRE 2 SENSOR WITH AN ANDROID SMARTPHONE

1 Open the FreeStyle LibreLink app on your Android smartphone

2 Hold the **back of the Android smartphone** near the sensor and position the Near Field Communication (NFC) antenna over the sensor

3 Continue holding your smartphone near the sensor until you hear a **second tone** and/or feel a **vibration**. This completes the scan

ALARM. SCAN. ACT.

Quick Tips

- Remove bulky or metallic phone cases as they can interfere with the NFC signal.
- Do not move the smartphone until you hear the first tone and/or feel a vibration. This indicates your smartphone and sensor have established an NFC connection.
- 60-minute warm-up required when applying the sensor.
